

Felipe Mejia

Mistral AI Product CV

felipe.mejia@spotz.pro | <https://www.linkedin.com/in/felipemejiaosorio/> | <https://github.com/afmo91>

SUMMARY

Product & Growth leader with 12+ years of experience across telecom, e-commerce and B2B SaaS.

0'1builder who turns ambiguity into shipped outcomes, combining discovery, prioritization, and execution.

Strong analytics + observability mindset, instrumenting lifecycle metrics to guide iteration.

Emphasizes AI product strategy, workflow design, and analytics instrumentation for teams building with complex data systems.

EXPERIENCE

Spotz.pro — Product Builder

AI ads platform | 6 channels | 0'1 delivery

- Built an AI-powered multi-channel advertising platform across Google, Meta, LinkedIn, TikTok, X and Pinterest.
- Shipped a unified dashboard for workflows + performance monitoring; introduced observability across channels.
- Tested freemium + usage pricing; instrumented activation and retention; iterated based on lifecycle data.
- Led end-to-end delivery: specs, cross-functional alignment, API integrations, QA and releases.

Adamo Telecom — Growth Product Manager

same-day activation | ~15% churn reduction | +25% conversion | -30% CAC | €200K+ recovered | €3M+ budget

- Unified customer data across Salesforce and marketing stack for full-funnel visibility.
- Introduced attribution modeling and recovered €200K+ in wasted spend; dashboards used in weekly C-level decisions.
- Migrated legacy onboarding to digital-first; aligned engineering/data/commercial teams across Spain; reduced activation from 5 days to same-day.
- Redesigned onboarding to reduce churn by ~15%.
- Built experimentation cadence (+25% conversion, -30% CAC); owned €3M+ annual budget across Google Ads, Meta Ads, programmatic.
