

Felipe Mejia

Product & Growth Leader | AI Systems Builder

felipe.mejia@spotz.pro | <https://www.linkedin.com/in/felipemejiaosorio/> | <https://github.com/afmo91>

SUMMARY

Product & Growth leader with 12+ years of experience across telecom, e-commerce and B2B SaaS. I build AI-powered systems, growth engines, dashboards and automation workflows that help teams ship faster, measure better and scale.

EXPERIENCE

Spotz.pro - Founder / Product Builder

AI SaaS platform | 6 paid media channels | 0'1 product build

- Built an AI-powered SaaS platform for managing and optimizing paid media workflows across Google, Meta, LinkedIn, TikTok, X and Pinterest.
- Designed dashboards, API integrations, lifecycle metrics and AI recommendation workflows.
- Tested freemium and usage-based pricing models.
- Led product discovery, specs, implementation, QA and release management.

Adamo Telecom - Growth Product Manager / Digital Acquisition

500K+ customers | €3M+ annual media budget | +25% conversion

-30% CAC | same-day activation

- Led digital acquisition and growth product initiatives for a telecom operator with 500K+ customers.
- Managed €3M+ annual performance marketing budget across Google Ads, Meta Ads and programmatic.
- Improved conversion by 25% and reduced CAC by 30% through experimentation.
- Reduced onboarding time from 5 days to same-day activation.
- Reduced first-month churn by 15% through onboarding improvements.
- Recovered €200K+ in wasted spend with attribution and performance monitoring.

Segmentta - Co-founder / Product & Growth Consultant

30+ institutional clients | €500K+ annual revenue

| team of 10

- Co-founded and scaled a B2B consulting business serving institutional clients in regulated markets.
- Worked with 30+ institutional clients including healthcare and enterprise companies.
- Built and managed a team of 10 across commercial, logistics and marketing operations.
- Grew annual revenue to €500K+ before exiting through sale of ownership stake.

Consulting / AI Systems - Product, Growth & Automation

AI assistants | agentic workflows | automation systems

growth infrastructure

- Design and build AI assistants, agentic workflows, API integrations, automation systems and growth infrastructure.
- Work across B2B lead generation, support automation, CMS/CRM systems, WhatsApp lead capture, AI admin assistants and performance marketing systems.

SELECTED ACHIEVEMENTS

- Built a 0'1 AI SaaS platform for multi-channel paid media workflows.
- Managed €3M+ annual performance marketing budget across Google Ads, Meta Ads and programmatic.
- Improved conversion by 25% and reduced CAC by 30% through experimentation.
- Reduced onboarding time from 5 days to same-day activation.
- Recovered €200K+ in wasted spend with attribution and performance monitoring.
- Co-founded and scaled a B2B consulting business to €500K+ annual revenue before exit.
