SUMMARY

Product & Growth leader with 12+ years of experience across telecom, e-commerce and B2B SaaS. I build AI-powered systems, growth engines, dashboards and automation workflows that help teams ship faster, measure better and scale. Emphasizes AI product strategy, workflow design, and analytics instrumentation for teams building with complex data systems.

EXPERIENCE

Spotz.pro - Founder / Product Builder

AI SaaS platform | 6 paid media channels | 0'1 product build

- Built an AI-powered SaaS platform for managing and optimizing paid media workflows across Google, Meta, LinkedIn, TikTok, X and Pinterest.
- Designed dashboards, API integrations, lifecycle metrics and AI recommendation workflows.
- Tested freemium and usage-based pricing models.
- Led product discovery, specs, implementation, QA and release management.

Adamo Telecom - Growth Product Manager / Digital Acquisition

500K+ customers | €3M+ annual media budget | +25% conversion

-30% CAC | same-day activation

- Led digital acquisition and growth product initiatives for a telecom operator with 500K+ customers.
- Managed €3M+ annual performance marketing budget across Google Ads, Meta Ads and programmatic.
- Improved conversion by 25% and reduced CAC by 30% through experimentation.
- Reduced onboarding time from 5 days to same-day activation.
- Reduced first-month churn by 15% through onboarding improvements.
- Recovered €200K+ in wasted spend with attribution and performance monitoring.

Segmentta - Co-founder / Product & Growth Consultant

30+ institutional clients | €500K+ annual revenue | team of 10

- Co-founded and scaled a B2B consulting business serving institutional clients in regulated markets.
- Worked with 30+ institutional clients including healthcare and enterprise companies.
- Built and managed a team of 10 across commercial, logistics and marketing operations.
- Grew annual revenue to €500K+ before exiting through sale of ownership stake.

Consulting / AI Systems - Product, Growth & Automation

AI assistants | agentic workflows | automation systems

growth infrastructure

- Design and build AI assistants, agentic workflows, API integrations, automation systems and growth infrastructure.
- Work across B2B lead generation, support automation, CMS/CRM systems, WhatsApp lead capture, AI admin assistants and performance marketing systems.

SELECTED ACHIEVEMENTS

- Built a 0'1 AI SaaS platform for multi-channel paid media workflows.
- Managed €3M+ annual performance marketing budget across Google Ads, Meta Ads and programmatic.
- Improved conversion by 25% and reduced CAC by 30% through experimentation.
- Reduced onboarding time from 5 days to same-day activation.
- Recovered €200K+ in wasted spend with attribution and performance monitoring.
- Co-founded and scaled a B2B consulting business to €500K+ annual revenue before exit.

SKILLS

TOOLS
